

## **Support Team Boat & Charter Boat Information**

### **1. Support Boat**

To operate a boat in Japan, the boat captain must have a license issued by the Japanese government. Therefore, as a measure for those who do not have a license in their respective countries, the coach can be accompanied by a Japanese support boat. The cost is 5,000 yen per person per day, and please pay in cash at the time of registration. The total amount during the tournament period is 30,000 yen (about 188euros) per person. Maximum number of people allowed on board is 3 including the Japanese driver (coach). If you are interested, please contact the person in charge below.

### **2. Charter Boat**

Participating teams wishing to charter one of the 420 boats to be used in this tournament will have boats used in Japan. The price is 80,000 to 100,000 yen (about 500 to 625euros) per boat, and the boat number is approximately from the late 55,000s. We will prepare it for delivery at Enoshima Yacht Harbor from at least April 29th. If you are interested, please contact the person in charge below.
